# Vision Panels

All of our glazing options include clear laminated glass & anti-tamper vision panels as standard helping increase visibility and improve the reach of light improving your property internal conditions, without compromising on security.

Choose from a range of sizes and positioning options, starting from 225mm x 225mm to 650mm x 1700mm.

For all glazed panels purchased with a door, the frames are powder coated to match. These panels are also sold separately.

# Handles

We are the UK's only approved supplier of HOOPLY™ handles, which are compatible with our range of steel security doors, but also commonly used on container doors.

From standard lever handles, to stainless steel security models, HOOPLY™ handles provide unparalleled security at unbeatable value.

We also have blanking plate options that are made in-house which are a great alternative if you only require an interior handle.

The Borg Code Lock option is ideal when you need to control and restrict access to certain individuals.

# Doors that can fit any aperture

If one of our standard sizes doesn't quite suit your requirements, we have a variety of extension panel options to help fit your opening, ensuring a easy installation process and a seamless completed look to your property.

Whether your opening requires a 5mm extension or a 1000mm extension, our frame extensions can ensure the door fits perfectly to your property while still looking stylish and modern.

Over head and expanding side panels are available in a range of standard sizes from stock, and are powder coated to match when purchased with a door.

## Over Head Panel

**Sizes Available: +25-300mm or custom size**

Our over head panels are a far stronger alternative to using timber or another form of packing. Manufactured from 1.5mm steel and powder coated white as standard or to match the colour of your door.

## Expanding Side Panel

**Sizes Available: +5-40mm , +50-85mm**

Our expanding side panels use wind out lugs that screw into pre-threaded holes at the fixing plate positions. These panels can ensure the door is fitted without any required form of packing.

## Frame Extensions

Our frame extensions can extend your door width and height up to an additional 150-1000mm. As these are made to order it can take up to 10 working days from order date plus delivery time.

### Solid Frame Extension

Our solid frame extensions are a great way to give your property a flush finish. These panels are fully insulated with Rockwool infill & are available in stock white or powder coated to match the colour of your frame.

Height: 150-1000mm

Width: 150-1000mm

### Glazed Frame Extension

Our glazed frame extensions are fully insulated, can be powder coated to match your door frame & has laminated toughened double glazing allowing additional natural light to pass through whilst still keeping your property secure.

Height: 150-1000mm

Width: 150-1000mm

Glass Type: Clear, Satin (Opaque) & Cotswold Effect

### Louvred Frame Extension

Our louvred frame extensions are designed for applications that require constant airflow such as bin rooms, plant rooms & industrial units. These are supplied in stock white with the option to powder coat to match your door.

Height: 150-1000mm

Width: 150-1000mm

Airflow: Up to 50%

# Upgrade your doors to the best security

We offer security upgrades on our doors to allow you to increase security, with a budget in mind. Our security upgrade options include some different components at the main lock and handle of the door.

**UAP Kinetica  
3\* Kitemarked Cylinder**

## Cast Cylinder Covers

Our high security stainless steel cylinder cover ensures the cylinder is protected and it has been designed to fit perfectly with our HOOPLY™ handle range.

## Stainless Steel Handles

Our security upgrade handles are made from heavy duty stainless steel material making them robust & long lasting. In addition, these genuine HOOPLY™ handles feature an anti drill euro cylinder cover.

## 3\* Kitemark Cylinder

Our 3\* Kitemark Cylinder has enhanced security features and has anti tilt technology blocking access to the bolt during an attack.

Anti-Snap

Anti-Drill

Anti-Bump

Anti-Pick

## Additional Upgrades

### Drop Bar Kit

For additional security you can add a drop-bar kit. This kit consists of 4-8 brackets (colour matched to your door), 2 drop bars (Traffic Yellow) and fixings. Easy to fit, they are suitable for both inward or outward opening doors.

### Security Trim

The security trim will protect your property as well as give it a professional finished look. This kit is fast and easy to fit, protects your fixings from attack and eliminates the risk of tampering.

### Tower Bolt

Our heavy duty tower bolt has been designed for use on fire escape doors to complement the EXIDOR™ panic furniture. These add an extra level of security to your door by bolting into the frame.
